Pelosi, You Anti-American PIG!

Good God, what is going on in this country?

Yesterday, Pelosi and her goons gave "payback" to organized labor in the form of "easing workplace organization rules."

Uh huh.

Let's call this what it is, ok?

*This bill is nothing other than a straight-line violation of your right to a secret ballot in matters of your employment, thereby allowing you to be **coerced and even threatened** if you don't vote the "right" way!*

House Speaker Nancy Pelosi, D-Calif., said the bill was "the most important labor law reform legislation of this generation." "It is about basic labor rights, about the rule of the majority free from intimidation and about protecting jobs," she said. REALLY?

Why, you'd think that this bill would be one which would *introduce* a secret ballot in union election decisions, where at present, you've got business (or union) goons standing over your back watching how you vote and "persuading" you to check the correct box.

You'd be wrong.

In fact, ***this bill GETS RID of the Secret Ballot, and replaces it with a bare requirement that a majority of workers sign a "card check" - in other words, as soon as a majority of workers sign a statement saying they want a union, everyone in the place gets one.***

As the law stands **now**, you get a secret ballot.

Somehow, Pelosi-Cum-Hitler thinks that its better to have people tell you how to vote, and be able to coerce you into voting the "right way!"

Gee, you think she'll try to have "poll coaches" and "signed ballots" next for national elections?

Given this record - and this bill - I wouldn't put it past her.

This is a pretty clear indication of what Pelosi and company stand for, don't 'ya think?

I couldn't agree more. Pelosi is dangerous and at times moronic. Her recent visit to Syria was probably done to spite George Bush and nothing more. She is driven by hate and anger. She knows nothing of fiduciary duties as an elected official to protect and preserve the democracy and our "inalienable" rights. She is a socialist at heart with a sinister ulterior motive. She represents all that is wrong with the left wing liberal cult. They strive to destroy the very fabric of freedom. They will institutionalize and enslave the populus. She is after all from that looney bin area called San Francisco. I know how things are there. I spent 4 years there in medical school. I know the thinking and the motives of those people. They are anti-government, anarchy motivated, hate mongers. They destroy opposition view points and oppress freedom of expression and speech. All the things that they purportedly stand for. Mark my words. There is a secret revolution that is gaining speed in this country. It is a revolution that is funded by an ideology that is as screwd up as Hugo Chavez's. We live in a world in the US where we are afraid of frivolous law suits due to user stupidity, our rights

are diminished for the very few who cry murder (think IMAMS and US AIR), and common sense is thrown out the window. It is truly a scary world. A world of no accountability, laziness, and no resolve. I truly fear for our future. Nancy Pelosi is the tip of the ice berg.
